# Press Release

## Lexicon Systems, LLC to give Web Seminar on Agile Compliance Management Systems for Environment, Health & Safety

**Houston, TX –** Lexicon Systems, LLC announced today that it will conduct a Web Seminar with ESS of Tempe, AZ on *Agile Compliance Management Systems for Environment, Health & Safety*. The educational Webinar will feature Jill Barson Gilbert, QEP, President and Founder of Lexicon and Joe Appelbaum, Vice President of Product Development for ESS. The Webinar will present Gilbert's analysis of what constitutes an agile EH&S software system, based on two paradigms long accepted in the software industry—the Capability Maturity Model and Agile Systems.

"Lexicon Systems is excited to have the opportunity to participate in this seminar.  Seminars like this help to educate the marketplace, and to increase software standards overall," said Gilbert. "In a market where every dollar spent on Information Technology should provide value, it is important for organizations to know what to look for when considering a commercial EH&S software solution."

For further information on the Webinar, visit the ESS website at www.ess-home.com.
