## **Lexicon Named in Landmark AMR Research Report**

**Houston, TX** – Independent consulting firm Lexicon Systems, LLC announced today that it was named in the AMR Research Report, *Technology Options to Support EH&S Compliance* (February 2007). This is the first comprehensive report by industry analysts to cover the environmental, health & safety (EH&S) software market. Lexicon President and founder Jill Barson Gilbert was interviewed by researchers, providing EH&S software industry insights.

“Lexicon Systems, LLC is pleased that industry analysts are taking notice that EH&S issues are important to the overall performance of the organization, and are a key element of governance, risk and compliance,” said Gilbert. Lexicon has strived to elevate EH&S information technology issues to C-level executives and to the Board level. ”

### **About Lexicon Systems**

Lexicon Systems, LLC is an independent consulting firm that helps clients to bridge the gap between business issues and information technology. The firm advises senior management in industry, investment firms and software companies. The firm's management has completed assignments for and held positions with many top global and U.S. firms. Lexicon also has a solid foundation in software development and implementation. Its founder was director of product management for the world's largest database company and today is a thought leader in EH&S management information systems.

### **About AMR Research**

AMR Research, Inc., an independent company of experts, researches the intersection of business processes with technology, with a special focus on supply chain and enterprise resource planning (ERP). Founded in 1986, AMR Research provides subscription advisory services and facilitated executive peer forums to operations and IT executives in the consumer products, life sciences, manufacturing and retail industries. The company has published more than 14,000 pieces of research.
