GILBERT SPEAKS ON KEY CONSIDERATIONS FOR SOLUTION SELECTION

HOUSTON, TEXAS. Lexicon Systems President & CEO Jill Barson Gilbert, QEP facilitated a session on Key Considerations for Solution Selection at the Enablon Sustainable Performance Forum on September 18, 2012. Gilbert was one of the featured speakers at Enablon North America Corp's 4th annual Sustainable Performance Forum at the Radisson Blu Aqua Hotel in Chicago, Illinois.

Gilbert said, "I was pleased to facilitate this session, as we have extensive experience in software evaluation and selection. The discussion was lively and enjoyable and a good end to the first day of the SPF."

Approximately 400 people participated in the two-day event for current and prospective Enablon environment, health & safety (EHS) and sustainability software users. For further information, visit www.enablon.com.

ABOUT LEXICON SYSTEMS, LLC

Lexicon Systems, LLC is an established management consulting firm that helps companies to address complex issues, with a primary focus in the EHS management information systems market. The firm helps to move businesses ahead with senior staff that understand industry and its issues, and arrive at solutions thoughtfully and quickly.

Lexicon consultants are independent and objective and put client interests first. The firm offers the breadth and depth of experience of a large firm with the responsiveness of a small firm. Lexicon Systems, LLC is a preferred provider to EHS and IT senior management in industry, as well as C-level executives in software and investment firms.
